This course will improve your batting immeasurably over the winter period. There are 30 hours of batting (24 for the juniors) focusing on the technical, tactical and mental side of the game.

The course is designed for good club, District and County players and will give you a taste of professional academy programmes. There will be a maximum of 16 on each Academy to really give the players quality input throughout. Included will be drills, nets, bowling machine work and video analysis. To improve your batting you need to hit lots of balls so for those batters out there- don't miss out!

Level 3 and 4 coaches will lead the course along with other guest coaches.

Previous courses have been a great success and the benefits for those that have attended have been evident in their run- scoring. It has been great to see over the last few years players that have attended our batting academy programmes and 1 to 1 sessions; score runs for their club sides, county age groups, move on to the academy at WCCC, represent the Midlands, England Young lions, receive contracts with counties and go on to play first class cricket.
